

Sustainability Workshop

How To Start A

School of Sustainability (SOS) at NMSU

Tuesday, December 8th, 2015

2:30 PM–3:45 PM

Milton Hall Room 50

A panel of sustainability professors David Boje, Mark Uchansky, and Lois Stanford will look at Arizona State's Model for founding a School of Sustainability at NMSU. See SOS <https://schoolofsustainability.asu.edu/>. This panel of faculty teaching sustainability at NMSU, will work with the audience, in figuring out next steps to start an NMSU School of Sustainability. We will also review the sustainability minors and graduate sustainability certificate program at NMSU, and look at our own next steps for starting a SOS. See: <http://greening.nmsu.edu>.

David M. Boje, Ph.D.

Professor in the Business College, and the coordinator for Greening the Curriculum at NMSU

Mark Uchanski

Associate Professor of Plant and Environmental Sciences in College of Agriculture, Consumer, and Environmental Sciences (ACES).

Lois Stanford

Professor in College of Arts and Science, a cultural anthropologist who focuses on agricultural anthropology, globalization, food studies, and community development in Mexico
